HomeMatic

Remote Control 12 buttons, black

Product ref.: 76779
PRODUCT FEATURES

- Remote control with illuminated labelling fields for universal use
- Enables the operation of connected Homematic devices via 12 individually configurable buttons
- Immediate confirmation during radio communication via duo-coloured LED
- One button can simultaneously execute several functions (e.g. move shutters down and switch on the lights at the same time)
- Secure thanks to AES authentication
- Labelling fields for button functions can be replaced at any time

TECHNICAL SPECIFICATIONS
