

eQ-3 Valve Drive 230 V

Product ref.: 151054A0

Product features

- Automatically opens and closes valve drives of heating manifolds, radiators and convection heaters for comfortable regulation of the room climate
- Controls Homematic IP Floor Heating Actuators (HmIP-FAL230-C6 or HmIP-FAL230-C10) for example, in combination with a Homematic IP Thermostat (e.g. HmIP-WTH-2) or conventionally via electromechanical wall thermostats
- If voltage is not applied, the valve drive holds the valve closed (Normally Closed)
- The valve is entirely opened or closed within only 3 minutes (typically)
- Easy installation without any tools and snap-on fastening
- The valve drive can be installed in any position (e.g. upside down)
- Can be universally used for valves from the most popular manufacturers (e.g. Heimeier, MNG, Junkers, Honeywell-Braukmann, Oventrop, Comap, Schlösser and many more) with a thread size of M30 x 1.5 mm
- Installation on valves of other manufacturers is possible using corresponding adapters
