MODULAR DESIGN FOR HIGH FLEXIBILITY

Thanks to its modular design, the wall-mount remote control offers individual use:

- ✓ Adhesive or screw mounting in the supplied clip-on frame with enclosed mounting material
- ✓ Integration into existing switches with 55 mm frames of the the most common manufacturers

Examples:

- ✓ Installation on a free flush-mounted box with corresponding mounting plate
- ✓ Integration into Homematic IP Desk Stand (HmIP-DS55)
- ✓ As an alternative to battery operation, the wall-mount remote control can also be supplied with 230 V via the Homematic IP Power Supply Unit for brand switches (HmIP-BPS).

THE IDEAL FUNCTION FOR EACH APPLICATION

Two intuitive push-buttons for comfortable control of devices or system functions in your smart home: The device can be used to switch light sources on or off, activate or deactivate the eco mode or to move shutters up or down.

PERFECT SOLUTION FOR ENTRANCE AREAS

Multiple functions at the touch of a button: When leaving the house, for example, all the lights can be switched off and the eco mode for your radiators can be activated. Activating or deactivating of the protection mode via the wall-mount remote control also ensures a secure feeling in the smart home.

QUICK AND EASY INSTALLATION

Easy installation without any wiring effort thanks to battery operation and radio communication. The device can be placed where it is needed. It is ideal for mounting on walls, glass or furniture, for example – without the need to lay any power cables. Only the supplied adhesive strips or screws are required for installation. Thanks to residue-free removal of the adhesive strips, the wall-mount remote control is even suitable for rented property.

To enable operation, the device has to be connected with one of the following solutions:

- Homematic IP Access Point with free smartphone app and free cloud service
- Third-party solutions of partners
